PEST MANAGEMENT NOTIFICATION – Jalen Rose Leadership Academy

2021-22 SCHOOL YEAR

This letter serves to notify the Jalen Rose Leadership Academy community that the academy periodically treats the school grounds and building with chemicals for pest control. Such treatments occur over the weekend or on days where we hold staff Professional Development. This gives a minimum time lapse of 48 hours between the application of chemicals in student areas and the use of treated areas.

15000 Trojan Street
Detroit, MI 48235
313-397-3333
www.JRLADetroit.com

Official notification will be provided at least 48 hours before the application by official notice posted at the school's entrance way as well as posted on bulletin boards in the school's common area. Parents and/or guardians may also elect to receive the notice by first class mail post marked at least 3 days before the application if so requested. Additionally, parents and/or guardians may review the school's integrated pest management program at any time.

JRLA Board of Directors
Jalen Rose, President
Greg Boll, Vice President
Dean Brody, Treasurer
Dennis Archer, Jr., Secretary
Christopher Brochert., Director
Leigh Chandler, Director
Chris Brochert, Director
Jason Langwell, Director
Wendy Lewis Jackson, Director

The chemicals are applied around the perimeter of the building and on the grounds. The product used is the safest professional product available in the industry. No residue or odor is present at the time of the application.

The health and safety of our students is of the utmost importance and concern. If you have any questions, please contact the school's Principal or Dean of Operations by calling the main office at (313) 397-3333.

JRLA Principal
Wendie Lewis
